

Class Super

Class Super is the leading cloud software for administration of SMSFs. Thousands of accountants across Australia rely on Class Super to quickly and efficiently administer over 80,000 SMSFs.

Class Super streamlines all aspects of SMSF administration, delivering a truly automated and highly cost-effective solution. Cloud-based SMSF accounting software enables a wide range of users (including accountants, administrators, financial advisers and auditors) to manage all their SMSF administration and reporting needs from a single system – everything from set up to lodgement.

Here at Scott Associates, we are a proud user of Class Super, to administer and manage the Self-Managed Super Funds of all our clients.
